Just saw that email -- yes, that is fine.

Lets hope it won't happen often, but I understand balancing hectic schedules quite well. Saturday it is, make sure to make a note for the grader, so you don't get hit with a penalty.

Let me know if you need any help.

Alex

Subject: CSC 555 - Assignment 1 Request

Hi Professor Rasin,

I hate to start this year off with such a request but I have had a hectic traveling schedule for work this past week and again this upcoming week. Can I get a few days extension on Assignment 1?

I'll be in New York coming back Wednesday afternoon (attending class). I've gotten most of the work done for assignment 1 but still have the AWS problems to do (part 1&2). I have meetings all day Monday, Tuesday, Wednesday morning and dinners to attend both Monday/Tuesday. My schedule doesn't leave anytime to do the rest of the work by the due date.

Realistically I will have Thursday/Friday evening and all day Saturday to complete the work. I'm hoping for Saturday extension but if all goes well should have it done before then. Please advise if this is acceptable.

Again, sorry for starting this class with this request but I don't see another option with juggling everything.

Thank you,

Travis S Donoghue
